

# EasyPSV<sup>®</sup> Patterns

EasyPSV<sup>®</sup> Patterns are edge-to-edge designs pre-printed on EasyPSV<sup>®</sup> Printable Material. These Patterns take the designs from our EasyPatterns<sup>®</sup> line and bring them to our pressure sensitive vinyl. Just like our EasyPatterns<sup>®</sup> HTV, EasyPSV<sup>®</sup> Patterns do not need to be fed through a printer and are ready to be cut on a vinyl cutter.

## Application Instructions:

1. Cut design based on recommended material settings
2. Weed away excess material from design
3. Mask your design using the EasyPSV<sup>®</sup> application tape
4. Remove design from backing paper
5. Apply design using a squeegee

## EasyPSV<sup>®</sup> Applies to:

Glass/Mirror

Wood

Plastic

Metal

Ceramic

Cricut

Cameo

Brother
